

Prof. James H. Rimmer, PhD, is a Professor in the School of Health Professions and the first Lakeshore Foundation Endowed Chair in Health Promotion and Rehabilitation Sciences at the University of Alabama at Birmingham. He currently serves as director of the UAB-Lakeshore Foundation Research Collaborative and directs two federally funded centers, the National Center on Health, Physical Activity and Disability or NCHPAD (www.nchpad.org), which has been funded by the Centers for Disease Control and Prevention since 1999, and the Rehabilitation Engineering Research Center on Interactive Exercise Technologies and Exercise Physiology for People with Disabilities or Rectech (www.rectech.org), which has been funded by the National Institute on Disability and Rehabilitation Research since 2002. For over 30 years he has been developing and directing health promotion programs for people with disabilities aimed at reducing obesity, increasing physical activity and improving nutrition in youths, adults and seniors with disabilities. Since 1997 he has provided leadership in the development of interdisciplinary research programs in disability, physical activity and health promotion at the University of Illinois at Chicago and now at the University of Alabama at Birmingham (UAB). He has received 20 consecutive years of federal funding and was recently appointed to the President's Council on Fitness, Nutrition and Sports Science Board.
